

LAND & WATER

Innovation. Inspiration. Results.

COMLEY'S WHARF DREDGE, RIVER THAMES 2016

When Cemex needed to dredge approximately 410 m³ from a section of the River Thames in Fulham, they enlisted the expertise of Land & Water.

With the use of Land & Water's unique equipment and expertise, the designated area at Comley's Wharf was dredged without delays, even while working in tidal conditions.

Project Delivery

- Dredged approximately 410 m³
- The use of our amphibious excavator considerably reduced the risks normally associated with working on the intertidal habitat
- The amphibious excavator allowed us to work for longer time periods because it can work on both land and water seamlessly
