

WK150 LONG REACH (13m)

MODEL	MAX OUTREACH	MAX DIG DEPTH	TRAVEL WIDTH	OPERATIONAL WIDTH	MAX HEIGHT	MAX LENGTH	GROUND PRESSURE
WK150	12m	7m	3.5m	4.7m	3.42m	12.35m	0.119kg/cm ²

This soft terrain / amphibious excavator places less weight per square inch onto the ground than the average human footprint and coupled with 13m outreach is suitable for a vast array of projects. Unlike other excavators of its class this excavator uses a hydraulically retractable undercarriage that allows it to be delivered 'Ready to use', when it arrives on site.
