

WK150 LONG REACH (12m)

| MODEL | MAX OUTREACH | MAX DIG DEPTH | TRAVEL WIDTH | OPERATIONAL WIDTH | MAX HEIGHT | MAX LENGTH | GROUND PRESSURE |
|-------|--------------|---------------|--------------|-------------------|------------|------------|-------------------------|
| WK150 | 12m | 7m | 3.5m | 4.7m | 3.42m | 12.35m | 0.119kg/cm ² |

This soft terrain / amphibious excavator places less weight per square inch onto the ground than the average human footprint and coupled with 12m outreach is suitable for a vast array of projects. Unlike other excavators of its class this excavator uses a hydraulically retractable undercarriage that allows it to be delivered 'Ready to use', when it arrives on site.
